NEW DELHI 3 (India) \\
The 31st July, 1950

S. P. JAN

for Registrar General, India.

NATIONAL SAVINGS

CERTIFICATES

Are now available in three different series; maturing after 5.7 and 12 years. The certificates yield 3%, 3½% and 4-1/6% simple interest respectively, at maturity. The 12 years certificates increase your money by 50% but if necessary can be encashed after 18 months (Rs. 5/- certificates after 12 months). The 5 and 7 years certificates can be encashed at any time.

National Savings Certificates are obtainable in denominations of 5, 10, 50, 100, 500, 1,000 and 5,000 and you can invest upto Rs. \$25,000 in them (inclusive of any Post Office cash certificates held).

Full particulars obtainable from all post offices, District Organisers of the Small-Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers or the National Savings Commissioner, Simila.

TODAY'S SAFEST AND MOST PROFITABLE INVESTMENT

Births and deaths from principal diseases in towns with a population of over 30,000 in India for the week ending the 8th July 1950

Explanation of symbols used:—B.=Births; B. R.=Birth rate; C=Cholera; S=Smallpox; P=Plague; F.=Fever; D. D=Dysentery and Diarrhoea; R.D.=Respiratory diseases; M.D.=Maternal deaths; D.R.=Death rate; I.D.=Infantile deaths.

REMARKS

The figures of onths and deaths shown in this statement of the well-ending the 8th July 1950 relate to 180 towns of all well-ending the 8th July 1950 relate to 180 towns of all of onthe figures 233 and their population is 28,421 the reads. Thus for the formula for towns representing figures of an ford configuration is excrete in this statement. The rights of the figures at Laten conded in these towns were 1287, and 7 July for a lating buttless death rates of 25 5 and 17 8 per thousand of pood from a spectively.

(1) States Pert A and — The data here relate to 132 owns with an increated population of 29,720 thousands Information about Assam, Binar, and Madhya Protein odd not be included. The total number of towns is 201 or their population is 24,638 thousands. Thus \$1% of the otal number of towns representing \$4% of the total population is covered. The numbers of births and deaths recorded

in these towns were 11,194 and 7,295 representing birth and death rates of 23.4 and 13.3 ber thousand of population respectively. The table at the and gives the position by 5 ties.

Mortow a recorded of the first tent of 50 or over per those doing most or

(B) Stres (Part B) — 1^{1} 1 is here relate to 18 towns with an estimated population of 2,412 thousands. The total number of towns is 32 and their population is 3,753 thousands. Thus 56% of the total number of towns representing 64% of the total population is covered. The numbers of births and deaths recorded in these towns, were 1,470 and 62° representing 5 \(\cdot \cdot
